## **90 ANIMALS WERE SPAY/NEUTERED IN JUST 3 DAYS!**

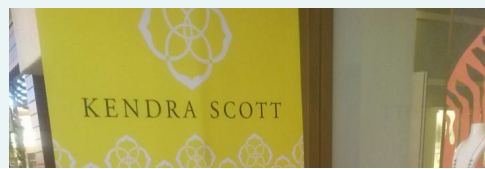

The OCSPCA hosted three mobile spay/neuter clinic days in June by collaborating with The Lucy Pet Foundation, The Feed Barn and Mesa West Pet Hospital. Working together, we are making a big difference and are a part of the solution to the pet overpopulation here in Orange County! While some groups own and run animal shelters, the OCSPCA is a program based organization whose primary focus is to help reduce the number of animals killed in our shelters every year through spaying and neutering.

Thank you very much to all of the wonderful and dedicated volunteers, staff and donors who make these events possible. We could not have done these very important and necessary clinics without you! Your love and compassion for animals is heart-warming!

## **Kendra Scott Gives Back Fundraiser in May was a success!**

Thank you again to the Kendra Scott store at Fashion Island in Newport Beach for hosting such a wonderful fundraiser to help the animals! The event raised over \$300 dollars for the OCSPCA! Stay tuned as we are planning another fundraiser with this store in the near future! The Fashion Island shopping center is very dog friendly so bring your dogs and shop for a cause!!

## Letters of Gratitude from Orange County Pet Owners to the OCSPCA

**It is an honor and a privilege to be able to serve the pets and their owners of Orange County. Thank you for expressing your appreciation! Below are just a few of the wonderful thank you notes that we have received.**

"Thank you so much for your help! Bella had her surgery and is now recovering. You have no idea how much it meant to me to have your help and support. I now get to enjoy my little girl for a while longer. I will tell everyone to donate to this amazing foundation and will do so myself once I catch up on these bills. Keep doing what you're doing; you are amazing!"

"Snooki is doing awesome! Great recovery and a happy baby!" says Snooki's rescuer! She is in great spirits & very playful. She played catch yesterday and went to the park before bed last night. No more discharge, rubbing and squinting her eyes like she used to do all day long. She's a very happy baby and is showing no signs of discomfort. Her big beautiful eyes are brighter, wider & full of life now. She just seems relieved."

"Buster is much better! Thank you! They did a urine test and it is showing up negative for the key-tones (toxins). He is still very weak but he is eating and drinking water on his own and is even walking around and sitting up for small amounts of time. The staff at the animal hospital said it didn't even seem like the same dog. He still has quite a bit of recovering to do, but the worst is over and thanks to your efforts and the help from the OCSPCA he survived! Your foundation literally saved his life! He is truly such a wonderful dog and I'm so thankful that he is getting better. Thank you again!!!"
